admail suite

The most effective way to enlarge your sales and deliver marketing messages

Electronic emailing today is one of the most useful tools in the field of marketing. Many companies channel budgets to this media in view of the fact that it offers immediate results, a very high return on investment (ROI) and fast application.

The admail suite is an innovative technological development offering businesses a platform that enables the attachment of advertising or marketing messages to all outgoing emails from the organization. The system interfaces to the organizations' mail server and is controlled by a user friendly web management interface.

admail silver – an effective marketing tool
